Facelets

1. Make a small header that has a company name and a horizontal line. Something like this:
   \[ \texttt{<h2>\textit{Your Company Name}</h2><hr/>} \]

   Make three different pages that use that header, but with different company names.

2. Create a layout that looks like this:

   ![Layout Diagram]

   The top left and top right should be company logos (pictures), the top-center should be the page title in large letters, and the bottom should have contact information.
